How High The Moon

Patti Austin

Somewhere there's music How faint the tune Somewhere there's Heaven How high the moon

There is no moon above When love is far away too Till it comes true
That you love me as I love you

Somewhere, yeah, there's Heaven It's where you are Somewhere there's music How near, how far?

The darkest night would shine
If you would come to me soon
Until you will, how still my heart
How high the moon

Somewhere, yeah, there's music It's where you are Somewhere there's Heaven How near, how far?

The darkest night would shine
If you would come to me too
Till it comes true
That you love me as I love you

Somewhere, yeah, there's Heaven It's where you are Somewhere there's music How near, how far?

The darkest night would shine
If you would come to me soon
Until you will, how still my heart
How high the moon

How high the moon, does it touch the stars? How high the moon, does it reach up to Mars? Though the words may be wrong to this song You ask me how high, high, high, high is the moon
