

# I Can Fly

Patti LaBelle

Someone has got me on a cloud so high  
Spreading my wing  
Taking off at the speed of light  
I found love's elevator to the sky  
Ever since he's come into my life  
I've learned...

To fly  
So high  
Wanna tell the world  
I can fly  
Without a care  
I can fly  
So high, my my  
Ever since he's come into my life

Temptation is running all around me  
He said, 'Nevermind'  
Forget about worldly possessions  
Leave them behind  
Gave me time to take a look inside  
Then he opened the outside world  
And showed me how...

To fly  
So high  
Wanna tell the world  
I can fly  
Without a fear  
I can fly  
So high, my my  
Ever since he's come into my life

Once upon a time  
Darkness filled my life  
He talked me into turning on the light  
Everything's totally fine

He's got me on a cloud so high  
Out in the open  
I'm preparing for flight  
He provided the necessary time  
To repair these broken wings  
I've had for so long...

To fly  
So high  
Wanna tell the world  
I can fly  
I've got so much to share  
I can fly  
So high, my my  
Ever since he's come into my life  
He made it right  
Opened the sun  
Turned on the light  
Entered my life

To fly  
So high  
Wanna tell the world  
I can fly  
Without a care  
I can fly  
So high, my my

(Since he's come into my life...  
He made it right so I could fly)
