

# Time Will Tell

Patti LaBelle

All of my life  
I have lived for this kiss  
Passionate  
Mellowed with sweet tenderness  
None of those dreams  
Can compare to the way that i feel when I'm in your arms  
I know fallin' in love is easy  
Makin' it last is the part that beats me  
'Cause a rush ain't always real

Time will tell  
If this spell  
Will last us forever  
Time will tell  
If we sail  
Through this life together

Telling you, thing about love  
It can change down the line  
It can grow  
Only to die on the vine, only to die on the vine  
Who's to say if tomorrow we won't walk away  
And regret all the pain  
And end up two lonely people  
Who did our best to make something real  
That's a chance we'll just have to take

Time will tell  
If this spell  
Will last us forever  
Time will tell  
If we sail  
Through this life together

Sometimes it happens, people move too fast  
Hoping this time love will last  
Said I think I love you, there is no way to know  
If this fire that burns in my heart will eternally glow

Time will tell  
If this spell  
Will last us forever  
Time will tell  
If we sail  
Through this life together  
Together, baby  
Yes, time, time, time will tell...
