

## Never Leave Me

Patti Page

Never leave me  
Never leave me  
is all that I can say  
I keep repeating never leave me  
Never leave me  
For if you run away  
I'll be like a dawn without a sunrise  
A ship without a sail  
A keyless lock, a kite without a tail  
If you fail me  
If you leave me  
If you leave me  
You'll take my heart with you  
I can't believe you'd ever leave me  
Ever leave me  
When love is still so new  
When you hear love calling  
You know you must obey  
So never leave me  
never leave me  
Darling stay, stay, stay
