

This Is My Song

Patti Page

This is my song, this is my melody
This is my song, the very soul of me
Every note is a part of the love in my heart for you
Every word written there is a kind of a prayer
That you will love me too

This is my song, this my everything
Here is my heart, the song I sing
And I know if you'll stay when the words and music are through
I'll sing my song for no one but you

And I know if you'll stay when the words and music are through
I'll sing my song for no one but you
