

# Let Me Get To Know You

Paul Anka

Let me get to know you  
Help me make it last  
Love me spare the moment  
Good things go so fast

Let me kiss you slowly  
There, upon your mouth  
Let me get to know you  
North, east, west and south

Love, love, love  
We found love  
Together  
In each other  
We found love

Loving you comes easy  
With someone like you  
Skin to skin you please me  
I hope I please you, too

Let me build you rainbows  
Keep you from the rain  
Fill your world with sunshine  
Time and time again

Love, love, love  
We found love  
Together  
In each other  
We found love

Love, love, love  
We found love  
Together  
In each other  
We found love
