

All About Her

Paul Brandt

I'd take a bullet to the chest
I'd fight to my dying breath
Beg, steal and borrow
Give all my tomorrows
I'd move heaven, spin the earth
Pray till I ran out of words
On bended knee, hands in the air
So loud I wouldn't care

Call me crazy, I may be
'Cause just one look and she made me
So wide awake as she saved me
I wasn't living the lately

I'm all about her, can't live without her
Don't know what I did
To get to be her man, to get to love her
And to get to hold her like this
It used to be about me
Now my dreams are all about her

Thank God for making that girl
Me winding up in her world
Her shining on me
Yeah she's so beyond me

I'm all about the way she smiles
I'm all about her, drive me wild
Oh, I gotta let her know

I'm all about her, can't live without her
Don't know what I did
To get to be her man, to get to love her
And to get to hold her like this
It used to be about me
Now my dreams are all about her
All about her

Call me crazy, I may be
'Cause just one look and she made me
So wide awake as she saved me
I wasn't living the lately

I'm all about her, can't live without her
Don't know what I did
To get to be her man, to get to love her
And to get to hold her like this
It used to be about me
Now my dreams are all about her
Are all about her
All about her
Mmh, are all about her
My dreams are all about her
