

# Forever Summer

Paul Brandt

Feet on the dashboard, hair whippin' in the wind, sun on our skin  
I can feel a freedom I ain't known since I was a child  
Cut offs bikini tops, sunglasses from the five and dim, ah, you  
blow my mind  
So you crank a song on the radio, flash a rearview mirror smile

Turn it up, turn it up, this could be a forever summer  
Who knows if we're gonna get another day like this in a while,  
whoa  
Burn it up, burn it up, mix a little bit of get there faster  
With some slow it down and make it last, maybe make this the time  
of our lives

What we got's so hot it hit us like a hurricane, never been the  
same  
All we did is hold on for dear life after that  
If clouds rush in all I gotta do is see your face  
And the seasons change and a beautiful day comes back

Turn it up, turn it up, this could be a forever summer  
Who knows if we're gonna get another day like this in a while,  
whoa  
Burn it up, burn it up, mix a little bit of get there faster  
With some slow it down and make it last, maybe make this the time  
of our live

There'd be nothing better than always together  
So let's don't let go 'til it's summer forever

Whoa

Turn it up, turn it up, this could be a forever summer  
Who knows if we're gonna get another day like this in a while,  
whoa  
Burn it up, burn it up, mix a little bit of get there faster  
With some slow it down and make it last, maybe make this the time  
of our lives

Burn it up, burn it up, mix a little bit of get there faster  
With some slow it down and make it last, maybe make this the time  
of our lives

Whoa

Oh, the time of our lives
