

Nothing

Paul Brandt

Baby you and me could get away
Leave right now, no we don't need a thing
Let's forget the plans
And just remember when
We didn't have two dimes that we could spend.

R:

We'd stay up all night talking 'bout nothing
Took our time we never rushed it
A look and a smile and a touch could last us all night long
Then we'd drive for hours just going nowhere
We both knew just how to get there
All we needed was you and me and our favorite song
Man that was something
What we could do
With nothing

We could lock the doors and turn the lights down low
Go anywhere you would like to go
And even if words fail
We'll still find our way
Just like old times
Back when we'd stay

R:

Up all night talking 'bout nothing
Took our time we never rushed it
A look and a smile and a touch could last us all night long
Then we'd drive for hours just going nowhere
We both knew just how to get there
All we needed was you and me and our favorite song
Man that was something
What we could do
With noooooothing, yeah

Oh we didn't have nothin'
We were holding onto love back then
Oh but it wouldn't take a lot
For you and me to go there again

We'd stay
Up all night talking 'bout nothing
Took our time we never rushed it
A look and a smile and a touch could last us all night long
Then we'd drive for hours just going nowhere
I'll be fine as long as you're there
All we needed was you and me and our favorite song
Man that was something
What we could do
With nothing

Up all night talking 'bout nothing
Up all night talking 'bout nothing
Up all night talking 'bout nothing

Up all night talking 'bout nothing
Up all night talking 'bout nothing
