Outside The Frame

The shadows move slowly They climb up the walls 'Til the light hits the metal and glass It shines through the dust

Revealing the love In an old black and white photograph That was before But it's not anymore

'Cause outside the frame
You're getting on with your life
I wonder if I ever will
'Cause inside my heart

I picture us frozen in time Just you and I standing still Now everything's changed Outside the frame

The look in your eyes Your hand in mine And we're both holding on to a dream I'm still trapped in that moment

Where the sun always shines And I don't ever want to be free No, I want to stay As the light fades away

'Cause outside the frame
You're getting on with your life
I wonder if I ever will
'Cause inside my heart

I picture us frozen in time Just you and I standing still Now everything's changed Outside the frame

Outside the frame Where you're getting on with your life And I know that I never will 'Cause inside my heart

I picture us frozen in time Just you and I standing still Now everything's changed Outside the frame

I keep waiting for something to change But the picture inside stays the same And the fact of the matter remains
