

Start With Love

Paul Brandt

Well your mom and me
We think it's pretty neat
How our love turned out this way
When we heard your heart
Oh, right from the start
Both of us were changed
Watchin' love grow a little more each day

If I could show you everything I've ever learned
I'd start with love
Sum life's meaning up into just one word
I'd start with love

Oh and this can be a complicated life
But I've seen how everything will turn out right
When you start with love

It's the ABC's and then 1 2 3
and daddy play with me right now
all these tiny things they add up pretty big
and that's got me thinkin' about how life's too short
and how I wish time would slow down

If I could show you everything I've ever learned
I'd start with love
Sum life's meaning up into just one word
I'd start with love

Oh and this can be a complicated life
But I've seen how everything will turn out right
When you start with love
and the storms may come and the winds may blow
but if you'll just remember this it's all you'll need to know

If I could show you everything I've ever learned
I'd start with love
Sum life's meaning up into just one word
I'd start with love

Oh and this can be a complicated life
But I've seen how everything will turn out right
Yeah I promise everything will be just fine
When you start with love
When you start with love
