

Before The Old Man Died

Paul Kelly

I used to walk in shadows
I stayed out of the sun
I used to sort informtaion
and I used to pass it on

Before the old man died
Before we came alive
Before the old man died

I used to follow orders
Did my duty like a son
But I fell in love with whispers
And I turned them into songs

Before the old man died
Before we came alive
Before the old man died

For the way he ruined our mother
Not enough blood can run
We had plans me and my brother
Every day I cleaned the gun

Before the old man died
Before we came alive
Before the old man died
Before we came alive
