

# Clean this House

Paul Kelly

Its so disturbing, the rumours that I hear  
Its been so long since we talked and drank some beer  
I'm here to tell you before you fade from view  
Where is the man I knew?  
You've let things get on top of you

You better clean this house, everybody's talking  
Clean this house, they really think its shocking  
Clean this house, get that shit off the table  
Clean this house, before you get unable  
Too much junk on your stairs  
Too much junk everywhere  
Clean it up, get it out  
Do I have to spell it out?

Its disgusting  
It's a matter of some concern  
You're the last one to know  
Always the last one to know

Tell me not to worry, tell me its OK  
Tell me you're not dying, tell me to go away  
But you better clean this house, everybody's talking  
Clean this house, they really think its shocking  
Clean this house, this place is really leaking  
Clean this house, it looks like one long weekend  
Too much junk on your stairs  
Too much junk everywhere  
Clean it up, get it out  
Do I have to spell it out?

Too much junk  
Too much junk  
Everybody knows it but you  
Everybody knows it but you

You better clean this house, everybody's talking  
Clean this house, they really think its shocking  
Clean this house, this place is overflowing  
Clean this house, I think your slip is showing
