

I've Been A Fool

Paul Kelly

So you want a second chance
You want to start again, make everything alright
But I want to know if you've changed this time
Baby don't lie, don't you lie to me
What do you take me for?
I've been a fool, anyone can see
But I'll be your fool no more

You've got a way of talking
You could sell a poor man a bottle of air
But I want to know if you've changed at all
Baby don't lie, don't you lie to me
I've heard it all before
I've been a fool, most definitely
But I'll be your fool no more

Everybody loves you, I still love you
I want you back, I need you now
But I want to know
Have you changed your spots at all?
Baby don't lie, baby don't lie
I've been a fool, I've been a fool
