

Little Kings

Paul Kelly

I'm so afraid for my country
There's an ill wind blowing no good
So many lies in the name of history
They want to improve my neighbourhood

I'm so worried about my brother
He just gets sadder every day
We gotta take care of each other
Or else we're gonna have to pay

In the land of the little kings
There's a price on everything
And everywhere the little kings
Are getting away with murder

I was born in a lucky country
Every day I hear the warning bells
They're so busy building palaces
They don't see the poison in the wells

In the land of the little kings
Profit is the only thing
And everywhere the little kings
Are getting away with murder

In the land of the little kings
Justice don't mean a thing
And everywhere the little kings
Are getting away with murder
