

# I'm So Glad I Was Dreaming

Paul Overstreet

I guess we must have met somewhere  
That you were not around  
I can't remember why I fell  
Why I did not turn her down

But then I thought about you  
And my heart began to cry  
Because I knew how it would hurt you  
And your trust in me would die

And somewhere through the darkness  
Came a Little stream of light  
That opened up my eyes  
And washed away the night  
Then I saw it was you  
Who had been holding me tight

I'm so glad I was dreaming  
I'm so glad it didn't happen  
I'm so glad that when I woke up  
That it all went away

I was dreading to tell you  
That your man had been unfaithful  
I was so glad that I was dreaming  
When I went astray

I told you all about it  
And you helped me understand  
Sometimes we learn from dreaming  
And thank God that we can

'Cause that's one lesson  
I don't want to have to learn again

I'm so glad I was dreaming  
I'm so glad it didn't happen  
I'm so glad that when I woke up  
That it all went away

I was dreading to tell you  
That your man had been unfaithful  
I was so glad that I was dreaming  
When I went astray

I'm so glad I was dreaming  
I'm so glad it didn't happen  
I'm so glad that when I woke up  
That it all went away

I was dreading to tell you  
That your man had been unfaithful  
I was so glad that I was dreaming  
When I went astray
