

Over You

Paul Rodgers

How our spirits they danced on the tide of universal love
How our hearts they sang to the beat of the universal drum.

Don't let it be over
Don't say that we're through
Don't let it be over
'Cause I can't get, I can't get over you.

How the miracle of life blessed us with the sound of two hearts
beating
How the miracle of love caressed us, two lives that were so fleeting.

Don't let it be over
Don't say that we're through
Don't let it be over
'Cause I can't get, I can't get over you.

Don't let it be over
Don't say that we're through
Don't let it be over
'Cause I can't get, I can't get over you
I can't get over you
Can't get over you
I can't get over you
I can't get over you.
