

# Everytime I See You Around

Paul Stanley

Do you remember when you said I was the only one?  
We'll watch the years go passing by  
I never dreamed that with a love I thought had just begun  
I'd ever hear you say goodbye

When we meet and I start smiling  
And I'm just lying through my tears, baby

Every time I see you with your arms around another  
Every time my world comes crashing down  
And it's all bittersweet, my heart skips a beat  
Every time I see you around

I go to places but it's not the way it used to be  
I only picture you and I  
My friends all tell me I can push you from my memory  
There's only so much I can try

When I touch your hand to greet you  
I'm not sure that I'll let go, baby

Every time I see you with your arms around another  
Every time my world comes crashing down  
And it's all bittersweet, my heart skips a beat  
Every time I see you

I find my way to a warm embrace  
But I still think about you  
How can somebody else take your place  
I can't stand it

I find my way to a warm embrace  
But I still think about you  
How can somebody else take your place  
When the things that I do bring me closer to you

When I say, I can't stand it, no  
Do you remember when you said I was the only one?

Every time I see you with your arms around another  
Every time my world comes crashing down  
And it's all bittersweet, my heart skips a beat  
Every time I see you around, baby

Every time I see you with your arms around another  
Every time my world comes crashing down  
And it's all bittersweet, my heart skips a beat  
Every time I see you around
