## **Bitterness Rising**

## **Paul Weller**

Unfit to live in - just about fit to burst Like the banks of a swollen river As bitterness does its worst Working on your feelings - eating you all up But you have to shake that shit to move on An' let love carry you on up

(It's just) bitterness rising - taking you off Bitterness rising - you gotta shake those feelings off

Unfair to give in - and never changes course If you have the choice before you You must take it with a force

Or the past will take you - keep you from the truth As bitterness rises - from the ashes of your youth

(It's just) bitterness rising - taking you off Bitterness rising - you gotta shake those feelings off

Moments in time
Finding the space
To be what cha wanna be
The things you never got
Life you never had
The dreams that you once dreamed

Waiting your time - finding the space To be what'cha wanna be Well, just be

Or the past will take you - keep you from the truth As bitterness rises - from the ashes of your youth

(It's just) bitterness rising - taking you off Bitterness rising - you gotta shake those feelings off
