

From the Floorboards Up

Paul Weller

I've got a feeling from the floorboards up
Call it a calling if you like that touch
Call it what you will
I really don't care too much

I've got a feeling and I know it's right
I get it most evenings, if not every night
It sings in the air
And dances like candle light

Oh, when we play, we play, we play
Mama, from the floorboards up
Oh, when we dance, we dance, we dance
Papa, from the floorboards up
Oh, when we sway, we sway as one
From the floorboards up, from the floorboards up

I get a feeling from the walls and chairs
They tell me of the things that have always been there
And all that is not
Will have to come back to dust

Oh, when we play, we play, we play
Mama, from the floorboards up
Oh, when we dance, we dance, we dance
Papa, from the floorboards up
Oh, when we sway, we sway as one
From the floorboards up, from the floorboards up

I've got a feeling and I know it's right
I get it most evenings, if not every night
It sings in the air
And dances like candle light

When we play, we play, we play
Mama, from the floorboards up
And when we dance, we dance, we dance
Daddy, from the floorboards up
Oh, when we sway, we sway as one
From the floorboards up, from the floorboards up
From the floorboards up
