

I Wanna Make it Alright

Paul Weller

I wanna make it alright
alright between us two
I wanna put things right on this ground
before our time is through

I wanna be the kind
you want to come home too
I wanna be the one who gets to
make it with you with
try to love you better than
I ever done before

I wanna make it alright
I wanna make it alright

I wanna stand up and say
I'll always love you this way
I don't want you feeling blue
at the end of the day

try to put some goodness back
before this good thing goes
I wanna make it with you
I wanna make it with you

straight back like a slave to sorrow
soon we'll come away
get back like a stoned tomorrow
cutting through the day
ah soon, let's fly away
only to find no need
I'm getting itchy feet

I wanna make it alright
I wanna make it alright

And try to love you better than
I ever done before

I wanna make it alright
alright between us two
I wanna put things right on this ground
before our time is through.

I wanna make it alright
I wanna make it alright
I wanna make it alright
I wanna make it with you
