

## Love-Less

Paul Weller

Midnight star  
Light the way  
For thoughts that change  
Like night to day-  
And bless the course  
That runs in time  
No matter how far-  
Shine my way.

I've gotta need to be loved  
Yes I want to be loved  
I gotta need to be loved  
Like anyone else

Bring the night  
Go bring all your thunder  
Nearer the light  
Shine here amongst us  
No matter the flight  
Fill me with wonder

No matter how far-  
Shine my way-

I've gotta need to be loved  
You I want to be loved.
