

One Tear

Paul Weller

These tears will flood the earth
The earth will start to turn
A turn that starts it all
More tears will have to fall

No words will ever do
One tear says it all
These films of people's live
These lives in someones film

I don't want your kind of gods
That divide us
Blood stain traces
Lyin' to the races
If God is real
Then show your face
I can't find it
I don't want your kind of gods
I will find it

No song can ever sing
One tear could say it all
This cruel and broken earth
This travesty of "God"

I don't want your kind of gods
That divide us
Blood stain traces
Lyin' to the races
If God is real
Then show your face
I can't find it
I don't want your kind of gods
I can't find it

These tears will flood the earth
The earth will start to turn
A turn that starts it all
More tears will have to fall
