

## Even Here We Are

Paul Westerberg

Beautiful flowers in your garden  
But the most beautiful by far  
The one growing wild in the garbage dump

Even here even here we are

Song of the bird lives in the sky  
But the most beautiful by far  
Scream of the man who never learned to fly

Even here even here we are

Sun shines bright, it's a beautiful sight  
But the most beautiful by far  
Is the blind girl alone with the angel of the night

Even here even here we are
