## **Love Untold**

## **Paul Westerberg**

They were gonna meet, on a rocky mountain street Two bashful hearts beat in advance Their hands were gonna sweat, it was all set She ain't showed up yet, still a good chance

It's a love untold
It's a love untold

Checking on her face, checks his sleeve for his ace And both just in case wear clean underwear Games would be played, excuses would be made The stupid things they said in their prayers

Oh, about a love untold It's a love untold

Soft hands slowly move across the blank white page Thinking of words for my silent lips and fingers to obey

It's a love untold
It's a love untold

They were gonna meet on a crummy little street It never came to be, I'm told Does anyone recall the saddest love of all The one that lets you fall, nothing to hold

It's the love untold
It's the love untold

Once upon a love untold Once upon a love untold

Once upon a love untold Just another love untold

They were gonna meet on a crummy little street We were gonna meet on a crummy little street
