

# Good Girl

Paula DeAnda

Somehow I sit here, and I think about it  
Who needs love, for I've been without it  
When I met you, I didn't wanna let you in  
But you did something to me when you rubbed my hand  
Told me you would never do me wrong  
That what we have together will be so strong  
So tell me what is this, I'm falling, keep falling, yeah

I thought you took my heart and uh  
I was so mistreated  
I thought you could be the one  
You were all I needed

I'm a good girl  
I wanna give you the world  
Even all the signs above  
Wanna give you my love, yes all of my love

No matter how hard I try to fight it  
There's no any other boy that can deny it  
Coming around and out, spinning inside  
And it takes all that I got to fight it

When I remember what you did (ooh)  
For believing in what you said  
I put my trust in you  
I gave my best to you  
In the end there's no more you

I thought you took my heart (ooh)  
But I was so mistreated (no more you)  
I thought you could be the one  
You were all I needed

I'm a good girl  
I wanna give you the world  
Even all the signs above  
Wanna give you my love, yes all of my love

You had a good girl but you let her slip away  
Why did you, why did you

I was that girl for you that was always by your side  
How could you, how could you  
How could you

I'm a good girl  
I wanna give you the world  
Even all the signs above  
Wanna give you my love, yes all of my love (ooh, my love)

I'm a good girl  
I wanna give you the world  
Even all the signs above  
Wanna give you my love, yes all of my love (ooh, my love)

I'm a good girl

I wanna give you the world (you the world)  
Even all the signs above (signs above)  
Wanna give you my love, yes all of my love (ooh, my love)
