

Your Place

Paula DeAnda

I can't wait to put this loving on you
There's nobody that doesn't like me
So come on, let me show you
What you putting on when you out there
Wanna put it down, hold it down
Oh, you know I'm taking you there
Taking you there, oh, whoa, oh

Step up to the play boy, it's time to make your move
I'm giving the ok, show me now what you gonna do
Let's get back to your place, try a get to your place
So come and give me all of your love
Let's get back to your place,
I'll do whatever you say
You warm up me to go
Warm up me to go
Let's get back, let's get back
I won't wait

Wanna feel you inside my world
And you can be the river of it
You be the river of it
Our shadows dance by candle light
Can't be wrong if it feels right
All night making love
And we ain't stopping until the sun's up
I feel your love
I just wanna make you feel the same way I do

Step up to the play boy, it's time to make your move
I'm giving the ok, show me now what you gonna do
Let's get back to your place, tryina get to your place
So come and give me all of your love
Let's get back to your place,
I'll do whatever you say
You warm up me to go
Warm up me to go
Let's get back, let's get back
I won't wait

Take me to your place, ...all your mind
I'll be all over you, just let me come inside
And we can do whatever, anything what you like
Just know you'll be mine for the night
Take me to your place, might turn into my place
After I'm done with you, I'll talk what you like
Take me to your place, might turn into my place
After I'm done with you, I'll talk what you like

Let's get back to your place,
I'll do whatever you say
You warm up me to go
Warm up me to go
Let's get back, let's get back
I won't wait [x2]
