

Invisible night ~murderer~

Pay money To my Pain

I wanna take back
Everything I had
You took what's mine
Just give me back
My inner wings
So I can fly again
Just give in to me

This is the night
I will take it back from you

My everything (my everything)
You raped my gift

This is the sky
I will dive in head-first

So burning cold (so burning cold)
And fucking blue

I'm not suspect
In your murder
I'm not suspect
In your murderer
I'm not suspect
In your murder
I'm not suspect
You cunt

You do anything
To score some points

You're selling drugs (you're selling drugs)
Then take'em back

You use anyone
Just to get what you want

Think you're in charge? (think you're in charge?)
Go fuck yourself

You don't know anything
I'll educate
You don't know anything
You pawn

I wanna take back
Everything I had
You took what's mine
Just give me back
My inner wings
So I can fly again
Just give in to me

I wanna take back
Everything I had
You cut me open

And crushed my bones
You tore my wings
So I can't fly again
But no it's not the end

This is the night
I will take it back from you

My everything (my everything)
You raped my gift

You do anything
To score some points

You're selling drugs (you're selling drugs)
Then take'em back

I wanna take back
Everything I had
You took what's mine
Just give me back
My inner wings
So I can fly again
Just give in to me

I wanna take back
Everything I had
You cut me open
And crushed my bones
You tore my wings
So I can't fly again
But no it's not the end

I wanna take back
Everything I had
You took what's mine
Just give me back
My inner wings
So I can fly again
Just give in to me
