

Through all of this noise
Chasing a shadow why looking for answers, just leaves a question ?
Behind the notes and outside the lines
What you left behind what I feel inside
I hear your voice...

Narihibiita nanika wo shirazu tame no sairen
Hora, kyou no koko ni wa mada kizukanu furishite aruku hito
Sugiyuku toki no naka ni bokura wa nani wo mitsukedashite
Mada minu mirai ni nani wo idaku koto ga dekiru

Through all of this noise
Chasing a shadow why looking for answers, just leaves a question ?
Behind the notes and outside the lines
What you left behind what I feel inside
I hear your voice...

Nari owaru sono oto wa sono ato mo mada bokura no karadan naka
Zankyou ga umetsukushiteiru
Soko kara kikoete kuru mono wa kotoba ya melody dewa nakute
Ima no boku no naka de ikiteiru kare no koe

Through all of this noise chasing a shadow
Why looking for answers, just leaves a question ?
Behind the notes and outside the lines
What you left behind what I feel inside

We are your voice we are still with you
When you can't speak, with so much to say
More than a word more than a melody
What you left behind what I feel inside
I hear your voice...

Through all of this noise chasing a shadow
Why looking for answers, just leaves a question ?
Behind the notes and outside the lines
What you left behind what I feel inside

We are your voice we are still with you
When you can't speak, with so much to say
More than a word more than a melody
What you left behind what I feel inside
I hear your voice...

We're not alone
Through all of this noise chasing a shadow
Why looking for answers, just leaves a question ?
Behind the notes and outside the lines
What you left behind what I feel inside

We are your voice we are still with you
When you can't speak, with so much to say
More than a word more than a melody
What you left behind what I feel inside
I hear your voice...
