

Falling for You

Peabo Bryson

I'm caught in the act
Trying hard not to fall in love
When I look into your eyes
There's nothing else I can do
I can't hold it back
Though I try hard to rise above
My poor heart can't deny
What we both know is true

I'm falling for you
I'm falling for you
You're on my mind, day and night
I'm falling for you

Like a chain reaction
One little spark can turn to flame
It's a game I can't win
But I can't bear to lose
A strange attraction
Since I met you, I'm not the same
Though my chances are slim
I hope it's me that you choose

'Cause I'm falling for you
I'm falling for you
Oh, you're on my mind, day and night
I'm falling for you
Whoa-whoa

Some say that love makes a heart grow cold
(Love can make a heart grow cold)
It's only what you make it, so I'm told
(Everybody sing it)
All my life it seems I've been running
Hiding from love
(Well, I'm hiding from love)
Everybody only seems to be falling
In and out of love
I guess I'm long overdue
I'm falling for you
I'm falling for you, oh...

All my life it seems I've been running
Hiding from love
(I've been hiding from love)
Everybody only seems to be falling
In and out of love
I guess I'm long overdue
I'm falling for you
You're on my mind, day and night
I'm falling for you
Whoa-whoa...

All my life it seems I've been running
Hiding from love
(I've been hiding from love)
Everybody only seems to be falling

In and out of love
I guess I'm long overdue
I'm falling for you
Falling for you
You're on my mind, day and night
I'm falling for you, oh-oh...
