

Get Ready To Cry

Peabo Bryson

You don't understand what it means to be
Me only for you, oh, are you only for me
Don't tell me lies, don't apologize
Stand up, stand up and fight

Get ready to cry
You might have to find someone to love
Don't be surprised
At what you might find me thinking of
Get ready to cry
It might be goodbye to someone
Who's still in love with you
Still in love with you

Nothing comes easy, if you snooze you lose, lose
So make up your mind, what you wanna do
Stay night, are you gonna treat me right
Do it now, do it tonight

Get ready to cry
You might have to find someone to love
Don't be surprised
At what you might find me thinking of
Get ready to cry
It might be goodbye to someone
Who's still in love with you
Oh-oh-oh-ah-ah...
Well, I'm still in love with you, you

Don't take me for granted
I might not be around
Put your love on the line
And your feet on the ground
Don't tell me lies, don't apologize
Stand up, stand up and fight

Get ready to cry
You might have to find for someone to love
And don't be surprised
At what you might find me thinking of
Get ready to cry
It might be goodbye to someone
Who's still in love with you
Oh-oh-oh, you
Don't you know I'm still in love with you, oh...

Don't apologize
Go for what you know right now
Stand up and fight
