

Give Me Your Love

Peabo Bryson

You're a different kind of lady
More than just a friend, yeah
You've got the touch that drives me crazy
Something deep within

I know you've been through many changes
You're a woman, not a girl, no
Stop acting like we're strangers
Let me in your world

Rain, rain or shine, shine
I'm gonna love you anyway
You can call me day, day and night time
I'm anywhere you want
No matter how far, oh, oh

If you give your love to me
Give me your love
Give me your love
Come on in

I know seeing is believin'
But it's hard to understand, yeah
That special kind of feelin'
Something deep within

Rain, rain or shine, shine
I'm gonna love you anyway
You can call me day, day and night time
I'm anywhere you want, no matter how far, oh, oh

If you give your love to me
Give me your love, whoa...oh...

Give me your love
Give me your love, no, no
Give me your love, oh...oh...
Give me your love
Give me your, give me your love, oh...
Give me, give me your love
Give me your love
