

Go For It

Peabo Bryson

Ooh, whoa...

If I'm not the one you need
Then don't waste your time
I can understand it, oh, yeah
I'm not part of your dream
Go on with your life
The way you planned it, mm-hmm
Whether I'm your friend or your lover
I want to see you make it to the top somehow
Very soon you'll discover
It's an all-new world out there on your own

You've got to go for it, go on
You've got to go for it
I can understand it, go for it
You've got to go for it

Ooh-oh, whoa-oh, go
Go for it

If love is what you feel
Then don't compromise your position, oh, no
Just make sure you're for real
We'll learn to survive the competition, oh, yeah
I wanna be your friend or your lover
See you make it to the top somehow
Very soon you'll discover
Everyone's got a dream, got a dream of their own

You've got to go for it, oh...
Your chance has come around, yeah, go on
I don't wanna hold you down, go on

You've got to go for it, go on
You've got to go for it
Yeah, go for it
You've got to go for it, go on, go on

Go for it
I don't wanna hold you down
(You've got to go for it)
Go on, go on, go for it
Yeah, you've got to go for it
Go on, go on, go for it...
