

Good Combination

Peabo Bryson

You know, I've been a lot of places
I've done a lot of things
I guess you could say that I've lived
And I've loved
But I think I can safely say
That there's no woman in the world
Who can make me feel
Quite the way you do

(Ah-ah-ah...)

Your eyes look at me
They shown me things I could never see
How you do what you did
Caught me by surprise
Now and then, I reminisce
Of your lips the first time we kissed
Ooh, it feels so good
What you do it, girl

You and me make a good combination
Like a lock and key, you fit me to a tee
Ooh, you and me make a good combination, girl

No words can express
The chills I feel when our bodies press
Ooh, it feels so good
When you're here with me
Making love, ooh, it seems
I hear your voice softly in my dreams
And I love the way
You call out my name

You and me make a good combination
Like a lock and key, you fit me to a tee
Ooh, you and me make a good combination, girl

You and me make a good combination
Like a lock and key, you fit me to a tee
Ooh-wee, you and me make a good combination, girl

Sensation, temptation
Let's make love, no waiting
(I can wait no longer, baby)
I love you sincerely

Oh, baby
Feels so good, ooh-ooh...

Sensation, temptation
Let's make love, no waiting
(I can wait no longer, baby)
I love you sincerely
Whoa, baby

You and me make a good combination
(Feels so good)

Like a lock and key, you fit me to a tee
Ooh-wee, you and me make a good combination, girl
Feels so good, yeah

You and me make a good combination
Like a lock and key, you fit me to a tee
Ooh-ooh-wee, you and me make a good combination, girl
