

I Love The Way You Love

Peabo Bryson

When I think about your loving me
I can feel the world move underneath my feet
You, you touch my soul
When you wrap your arms around me
I love the way you love

Call my name and I will reach for you
To share the joy, the laughter
Everything you do
You, you got it, you got it all
When you wrap your arms around me
I love the way you love

I, I just can't, I just can't wait
To hold you and love you, tell me
What does it take, 'cause I can't wait
Till I hold you in my, in my arms
Here tonight

Love, love

Candlelight, a glass of wine for you
Such a perfect situation
And it's made just for two
You, you are, you are my friend
You are my lover
I love the way you love

I, I just can't, I just can't wait
To hold you and love you, tell me
Give what you got, I can't stop, no
Till I hold you in my, in my arms
Here tonight
Oh, yeah, yeah, yeah, yeah
Coming real soon

Oh, yeah
I love the way you love
Love, love, love, love
I love the way you love
Hey, yeah, yeah...
