

Lost In The Night

Peabo Bryson

A light shines in your eyes
And it burns through my soul
Till my heart feels the fire
Tonight is all we'll ever own
So let's take what we can
And let's find a way to forget
That we're, oh, so alone

You'll be my shelter from the storm
And I will keep you safe and warm
We'll take this moment
And make this moment last forever
We'll never let the morning come
We'll hide away from the light
And hold on to this magic we made
'Til we're lost in the night

Our days fly by so fast
In the beat of our hearts
Love can slip through our fingers
Tonight is all that's yours and mine
So let's give what we've got
And let's take this dream that we found
As a spirit in time

You'll be my shelter from the storm
And I will keep you safe and warm
We'll take this moment
And make this moment last forever
We'll never let the morning come
We'll hide away from the light
And hold on to this magic we made
'Til we're lost in the night
Oh-oh-whoa...

Let's hold on to each other
And get all tangled up
In these feelings we're feeling
Hold on to one another
For as long as it takes us
To feel like we're one
We'll be holding back the sun

(You'll be my shelter)
You're gonna be my shelter
(And I will keep you warm)
I'm gonna keep you safe and warm
(We'll take this moment)
Take this moment
Make it last forever, oh, no
Tomorrow never has to come
If we can just hold on tight, baby
And believe in this love that we made
'Til we're lost in the night
And believe in this love that we made
'Til we're lost in the night

Hold on, baby
Hold on
