

# Love In Every Season

Peabo Bryson

Who do you think you are  
Giving up on your very first try  
The chances go around  
They may never come your way again  
Being in love is hard sometimes  
It has its ups and down  
When you take the joy, you take the pain  
There's gonna be some hurt  
It's gonna get better before it's worse

Give it some time, do the best you can  
Love is still alive  
It's just your mind, trying to understand  
The real world and all the reasons  
That the stars shine in the sky  
That a child must learn to cry  
And why earth comes from the joy

We know as love  
Love is the feeling  
Let your heart sing  
Love, let the feeling go

Love in every season  
Every child must learn  
Love, love is the reason  
Winter turns to spring  
Love, love is a woman  
Who gives you what she can  
Love

Give it some time, do the best you can  
Love is still alive  
It's just your mind, trying to understand  
The real world and all the reasons  
That the stars shine in the sky  
That a child must learn to cry  
And why earth comes from the joy

We know as love  
Love is the feeling  
Let your heart sing, sing  
Love, let the feeling go

Love in every season  
Every child must learn  
Love, love is the reason  
Winter turns to spring  
(Love is gonna fall like rain)  
Love, love is a woman  
Love, loving me and someone  
Really, really understand  
Love, love...
