

Love Is Watching You

Peabo Bryson

Someone breaks your heart
After you've given all
Anyone could give
You gave all the love inside of you
And no one feels it quite like you do
Don't be afraid, let it show

Don't you know that heaven's watching you
Well, it's watching you, you, you
Don't you know that heaven's watching you, you
Don't you know that heaven's watching you
And it might be here tonight

All things must come to an end, yeah
Someone you love becomes your friend
That's the way life is
Even though it makes you feel bad
Try to remember the good times you had
Don't be afraid, let it show

Don't you know that heaven's watching you
Well, it's watching you, you, you
Don't you know that heaven's watching you, you
Don't you know that heaven's watching you
It might be here tonight, tonight, tonight

You've got something a woman should be proud of
Love is watching you, watching you
It's not wisdom to try to live without love
Yeah, yeah, yeah

Don't you know that heaven's watching you
Watching you, you, you
Don't you know that heaven's watching you, you
Don't you know that heaven's watching you
It might be here tonight, tonight

Love walks out on your life
Now you're hurt because of pride
Well, I know how it feels
To give all the love inside of you
And nobody feel it, no one but you
Don't be afraid, let it show, let it show

Don't you know that heaven's watching you
Well, it's watching you, you
Don't you know that heaven's watching you, you
Don't you know that heaven's watching you
It might be here tonight

You've got something a woman should be proud of
Love is watching you, watching you
But it's not wisdom to try to live without love...
