

Lover's Paradise

Peabo Bryson

I think that I'm never, baby
But love never felt like this before
You're my everything and more
I thank God above, baby
Whenever I look into your eyes
What you make me feel inside

Oh, tender lover
I'm so into you
You make everything seem right
Oh-oh, there is no other
Can make me feel the way you do
Since you came into my life

It's been a lover's paradise
And it feels so nice
Lover's paradise
And it feels so nice

Sometimes it's hard to believe, baby
Someone like you could ever
Ever be this way with me
Love is give-and-receive, baby
And you were the one who taught me how
I'm starting all over now

Tender lover
I'm so into you
You make everything seem so right
Oh, there is no other
Can make me feel the way you do
Since you came into my life

It's been a lover's paradise
And it feels so nice
Lover's paradise
And it feels so nice

No more long lonely nights
No more, no lonely
Love has come and now suddenly
It's you and me
You're the love of my life, my baby
Now and forever
That's the way it's got to be
(It's got to be, you and me)
Oh, oh-whoa...
(You and me, it's got to be)
Got to be

I just want you to know, baby
If we should ever drift apart
That you're always in my heart

Oh, tender lover
I'm so into you
You make everything seem so right

Oh-oh, there is no other
Can make me feel the way you do
Since you came into my life

It's been a lover's paradise
And it feels so nice
Sweet and tender lover, lover
Lover's paradise
And it feels so nice

Feels so nice, yeah
There's no other lover
That can love me like you do
Love me like you do
Love me like you do, oh...
Sweet and tender lover...
