

Somebody In Your Life

Peabo Bryson

You keep running from love
Afraid you'll get hurt like you did before
You say that you've had enough
Or you're so sure that you'd rather be alone
But you just never know

Somebody in your life
You might need somebody in your life
I could be somebody in your life
If you just let me be the one
You might want somebody in your life
You might need somebody in your life
Let me be somebody in your life
Let me fill your life with love

Lonely, it's there in your eyes
Can't keep hiding your heart away
One day, you might realize you want someone
Someone to touch in the night
Someone to reach for each day
Someone who'll hold you so tight
Darling, someone to give the love you need
Someone longing to be...
(You might need some...)

Somebody in your life
You might need somebody in your life
I could be somebody in your life
If you just let me be the one
You might need somebody in your life
You might need somebody in your life
Let me be somebody in your life
Let me fill your life with love, with love

It's time to start living
Time to believe
You're so scared of living
I think it's time to need

Somebody in your life
You might need somebody in your life
I could be somebody in your life
If you just let me be the one
You might want somebody in your life
Girl, I think you need somebody in your life
Let me be somebody in your life
Let me fill your life with love...
