

# This Time Around

Peabo Bryson

Sit right down and stay for awhile  
It's been so long since you were here  
Stick around, 'cause I missed your smile  
And I long to hold you near

Love of my lifetime  
You're my obsession  
I wanna make you mine  
But love is not a possession  
Love is a blessing  
You don't miss out till it's gone  
I learned my lesson  
Now I know right from wrong

This time, I know that love's not a game  
And this time, you won't be hurt, not again  
This time, I know that love has no shame  
I'm gonna give you all of my love

Now here we are, back where we belong  
We've got a chance to start again  
We've come so far, I hope we're not wrong  
Because the feeling still remains

You're the love of my lifetime  
You're my obsession  
I try to make you mine  
But love is not my possession  
Love is a blessing  
You don't miss out till it's gone  
I learned my lesson  
Now I know right from wrong

This time, I know that love's not a game  
This time, we won't be hurt, oh, not again  
This time, I know that love has no shame  
And I'm gonna give you all of my love  
All my love

Tell me, tell me if you're still in love  
Is there a chance for us  
It's been so long, baby  
I've been waiting, hoping, praying

This time, love's not a game  
This time, you won't be hurt, oh, no  
This time, I know that love has no shame  
And I'm gonna give you all of my love

(This time)  
All my love  
(This time)  
Love, this time around...
