

Treat Her Like A Lady

Peabo Bryson

Candlelight, romance
And a black and white movie
Makes me wanna treat her like a lady
A touch of her emotions
And just the way she looks through me
Makes me wanna treat her like a lady

Well she's my, my girl
And I never wanna be
A minute without her in my life
She's a lady, a lady to me

Feelings of desire in the way that she kisses
Makes me wanna treat her like a lady
And just to think she needs me
And I'm the one that she misses
Makes me wanna treat her like a lady

Well she's my whole world
And I never wanna be
A minute without her in my life
She's a lady, a lady to me
And to think about life without her is crazy to me

Time is all I need
To prove my love for her lives endlessly
And all I want
When I look in the mirror as my life goes on
Is her there with me

She's a lady
And I never wanna be just a memory to her
She's a lady, she's a lady
And to think about life without her is crazy
Crazy to me
