

We're The Best Of Friends

Peabo Bryson

It's so right to have you here
To fill my life with new ideas
And happy times, 'cause we're the best of friends
You're my source of inspiration
A positive force, a motivation
The spark of life that keeps us growing strong

And you make me feel so alive
And you keep my spirit so high
I knew from the start deep within my heart
We'd be friends

We're the best of friends
We're the best of friends
We're the best of friends growing in love
We're the best of friends
We're the best of friends
We're the best of friends growing in love

It takes you to make me see
The answer to life's mysteries
A simple thing sharing all our love
And the greatest part of all to me
Is having you and feeling free
To be myself and still be one with you
Whoa-oh-oh-oh...

You make me feel so alive
And you, you keep my spirits so high
I knew from the start deep within my heart
We'd be friends, friends
Oh-whoa...

We're the best of friends
We're the best of friends
We're the best of friends growing in love
We're the best of friends, you and me
We're the best of friends
We're the best of friends growing in love

We're the best of friends
You and me, we've got it
We're the best of friends
We're the best of friends growing in love
We're the best of friends
We're the best of friends
We're the best of friends growing in love...
