Why Goodbye

Peabo Bryson

So are we over now Do we just turn the page Or let the story end? Do we just walk away Just like we never meant I know we said some things And now you want to leave But maybe that's no reason to let a good love die Why goodbye Why must it be this way So many words So many other words that we could say Why goodbye After all this time Can't we try Why goodbye Why can't we work it out Why can't we talk it out A little more this time Search though the rain and find A ray of hope still shine We can just close the door We still are fighting for We've come too far together to leave it all behind Why goodbye Why must it be this way So many words So many other words that we could say Why goodbye After all this time Can't we try Why goodbye The road that I love is never easy You'll get lost along the way But in time You will find your way through We can make it through the bad times We can make it to the good times through the stormy weather 'Cos we belong together Why goodbye Why must it be this way So many words So many other words that we could say Why goodbye After all this time Can't we try Why goodbye

Can't we try just one more time

the now we'll stile won't one more smile Why goodbye...
