Just A Ride

Peace

Someday you will be king if you can make it out the slime Or someway, some kind of singer baby Dancing in the lights

Don't forget we only get until the day we die We can't stop and we can't slow down We're running out of time

We'll ride into the boiling sun on a hurricane sometime A burning lovers explosion erupted in the sky

Don't forget we've no regrets until the day we die We can't stop and we can't slow down We're running out of time, okay

Don't forget we only get until the day we die We can't stop and we can't slow down We're running out of time

Try to eat more blueberries
They put colour in your eyes
I'd kill to see you laugh again
I hate to see you cry

Don't forget I always said I'd love you till the day I die We can't stop and we can't slow down We're running out of time We're running out of time You know it's just a ride
