

# Love Me

Peace

I need someone to love me

I need someone, I need someone, I need someone to  
Love me

I need someone, I need someone, I need someone to  
Love me

I need someone, I need someone, I need someone to  
Love me

I need someone, I need someone, I need someone to  
Love me

Here

Cause sleepless I can dream

But be an Adam without Eve

I need somebody please, please, please

I can lay around and power down and let life do how it do  
But shaking heads and breaking beds won't turn water into you

I need someone, I need someone, I need someone to  
Love me

I need someone, I need someone, I need someone to  
Love me

Here

I can deal with the drain

Be a pill without a pain

A remedy for feeling lonely

It's a tiny little world

But you still feel close

I need someone, I need someone, I need someone to  
Love me

I need someone, I need someone, I need someone to  
Love me
