

Puppy Grin

Peach Pit

I'm alone, to begin
And just sat right here with my puppy grin
For you and your sneaking on holidays

What fun to be had
When you have got me here to hit right back
Just some Polly parroting on and on and like you want it

What's up with you, it's never been like you to be back and begging
I've been no good at acting as I should hear at your thought baby
Call me often if it's likely that you'll be right back and biting
What's up with you

How'd it go to be seen
That you've got some dog back home like me
Waiting up for you patiently as you round the drive and wake him

Lotta fun to be seen
When you've got this dog back on your leash
Giddy up for you baby ya any time of day you like it

What's up with you, it's never been like you to be back and begging
I've been no good at acting as I should hear at your thought baby
Call me often if it's likely that you'll be right back and biting
What's up with you

What's up with you, it's never been like you to be back and begging
I've been no good at acting as I should hear at your thought baby
