

Second Life with Emily

Peach Pit

Holding back and too embarrassed
Like you never heard me calling out your name
Did you see me as your fairest
As you went and lead my second life away

All I want is to be away with you
You and I could be as one you know
And though it's all game I want it

You've come out here to waste my time
As I'm saying go ahead and waste it
You've come out here to say online
What it is you're only saying wasted

Tell me, would it play as river knew?
Were it me to be there poured out in your room
Is it longing that you're drawing to?
Could it be that he has got me when it's you?

You've come out here to waste my time
As I'm saying go ahead and waste it
You've come out here to say online
What it is you're only saying wasted

All I want is to be away with you
You and I could be as one you know
And though it's all game I want it

You've come out here to waste my time
As I'm saying go ahead and waste it
You've come out here to say online
What it is you're only saying wasted
