Pearl Jam

I got a car
I got some gas
Let's get the fuck out of here
Get out of here fast
Oh, everyone's confused
So I stay in my room
I want to go,
But i don't want to go alone

I hope you get this message
But your not home
Oh i could pick you up
In 18 minutes or so
We could cross the bridge
We could play some tunes
I wanna go
But i don't want to go alone
With you i could never be alone

Oh please say
That you didn't already leave today
Oh it would hurt me so
If i couldn't go
I'll carry on
I've still got this song
Where ever you are know that
With you i go
I'll always be there in your soul.
