

Once (Ils S'aimaient)

Peggy Lee

Once his lips kissed my lips so sweetly
Once his heart beat for mine completely
Once his arms held me as they now hold her

Once I felt every thrill she's feeling
Once he to set my whole world reeling
Once I knew all the wonder of his warm love

Once I felt confident as she does
Loved for life, just the way that she does
Then one night, I reached out and he was gone

Once his lips kissed my lips so sweetly
Once his heart beat for mine completely
Now I long just to have that once, once more

How I long just to have that once, once more
